

## 12 Main Road, Bamford, S33 0AY

We began an extensive renovation of our 1908 solid brick/stone semi-detached house in September 2019 with the aim of:

- reducing our energy consumption and costs
- making the house warmer and more comfortable to live in
- reducing our reliance on gas for heating and cooking

Key improvements in the last 3 years:

- interior insulation of all outer walls on ground and first floor
- triple-glazed windows on first floor and in kitchen
- electric underfloor heating in bathrooms and dining room/kitchen
- new solid timber front door with double-glazed window unit

Earlier improvements:

- double glazed attic windows, side door & porch
- new slate roof + loft insulation
- replacement wood framed, double-glazed, sliding sash bay windows

Current project:

- insulation of cellar ceilings
